Covid-19 Vaccination uptake	1) <a href="#">OHID CHIME tool</a>	Multiple times annually	2022
Flu Vaccination uptake	1) <a href="#">Immform - Seasonal flu vaccine uptake in GP patients:</a>	Monthly during Flu season	2021-22
Screening uptake	1) <a href="#">OHID Fingertips - Cancer Services</a>	Variable depending on metrics	2021
Care for diabetes	1) <a href="#">OHID Fingertips - National General Practice Profiles</a>	Variable depending on metrics	2021

# APPENDIX B – DATA SOURCE DESCRIPTIONS (A-Z)

Data Source Link	Description	Authors
<a href="#">Access to green space in England   Friends of the Earth (2020)</a>	Secondary analysis of data from the Office of National Statistics on gardens, together with data on public green space, to identify neighbourhoods that lack both public green space and gardens.	Friends of the Earth
<a href="#">Air Pollution and Inequalities in London: 2019 Update (2019)</a>	A snapshot analysis of the distribution of air quality across London and the relationship between exposure to air pollution, deprivation and ethnicity.	Logika Noise Air Quality Consultants
<a href="#">Aspinall Report (2014)</a>	A report identifying existing data and gaps in data pertaining to inclusion health groups	Peter J Aspinall (University of Kent)
<a href="#">BAME Londoners more likely to be affected by climate emergency (2022)</a>	A report reviewing analysis of impact on climate crisis on black and minority ethnic groups	GLA (Greater London Authority)
<a href="#">Barriers to cycling amongst ethnic minority groups and people from deprived backgrounds – (2011)</a>	A report with data on lower levels of participation in cycling among black and minority ethnic and other disadvantaged groups and exploring the barriers that deter them from cycling	Transport for London (TFL)
<a href="#">Beyond the data: Understanding the impact of COVID-19 on BAME groups (2020)</a>	A report providing additional information and insights on the relationship between Covid-19 and black and minority ethnic communities in England from a rapid review of the published literature and stakeholder engagement exercises	OHID (Office for Health Improvement and Disparities - formerly Public Health England)
<a href="#">Census 2021 first release - CIU Report on London Datastore (2022)</a>	A GLA city intelligence unit report and blog on the 2021 census data release	City Intelligence Unit
<a href="#">Climate Risk Map   London City Hall (2019)</a>	A map created in partnership between the Mayor and <a href="#">Bloomberg Associates</a> to analyse exposure and vulnerability to climate change across Greater London	GLA
<a href="#">COVID-19: review of disparities in risks and outcomes (2020)</a>	A descriptive review of data on disparities in the risk and outcomes from Covid-19	OHID (formerly Public Health England)
<a href="#">Crime Survey for England and Wales (2020)</a>	An annual crime survey that reports on trends in violent crime across England and Wales with a nationally representative sample which included around 37,000 adults in 2020	ONS (Office for National Statistics)
<a href="#">Earnings and employment from PAYE (2022)</a>	ONS Dataset on earnings and employment statistics from Pay As You Earn (PAYE) Real Time Information (RTI) (Experimental Statistics), seasonally adjusted.	ONS
<a href="#">England Wales Census (2021)</a>	A survey led by the Office for National Statistics which seeks to determine the population size and details about households in England and Wales with a view to support decision on planning and funding services	ONS
<a href="#">English indices of deprivation 2019: mapping resources (2019)</a>	The <a href="#">Indices of Deprivation 2019 explorer</a> shows the relative deprivation of neighbourhoods for selected areas according to the indices of deprivation 2019 and indices of deprivation 2015 and allows users to search by a place name or postcode	UK Gov (Government)
<a href="#">Ethnic disparities in the major causes of mortality and their risk factors (2021)</a>	This report covers ethnic disparities in the major causes of mortality and their risk factors in the UK	UK Gov – Commission on Race and Ethnic Disparities
<a href="#">Excess mortality in England and English region (2022)</a>	In this report, excess mortality due to Covid-19 during the course of the pandemic have been reported starting in March 2020	UK Gov Official Statistics

# APPENDIX B – DATA SOURCE DESCRIPTIONS (A-Z)

Data Source Link	Description	Authors
<a href="#">Fact Sheets – ASH (2021-22)</a>	A collection of factsheets produced by ASH on topics of tobacco's effect on health, tobacco regulation and the latest tobacco-related statistics.	ASH (Action on Smoking and Health)
<a href="#">GLA Cost of Living 2022 Reports (2021-22)</a>	A series of reports, produced periodically across the year by GLA on the rising cost of living and its effects on Londoners	GLA
<a href="#">GLA, Survey of Londoners 2021-22 (2021-22)</a>	This was the second time the Survey of Londoners was undertaken (and followed same methodology of 2018-19 Survey) receiving 8,630 responses from across London and aimed at assessing the impact of Covid-19 and associated restrictions to key social outcomes for Londoners, not available from other data sources	GLA
<a href="#">Global Burden of Disease Tool for London (2019)</a>	A comprehensive global study—analysing 286 causes of death, 369 diseases and injuries, and 87 risk factors in 204 countries and territories	University of Washington
<a href="#">Health Profile for England, 2021 (2021)</a>	The Health Profile for England (HPfE) was first produced by Public Health England (PHE) in 2017. It brings together PHE data and knowledge with information from other sources to give a broad picture of the health of people in England today. The report has been updated annually, with content and format altering slightly each year.	OHID (formerly Public Health England)
<a href="#">Health Profile for London 2021 – (2021)</a>	A comprehensive review of health in the London region and builds on the findings of the <a href="#">Health Profile for England (HPfE) 2021</a> .	OHID (formerly Public Health England)
<a href="#">Home Affairs Committee Report (2022)</a>	Home Affairs Committee Report from February 2 <sup>nd</sup> 2022 which includes details on asylum seekers in London at that time.	House of Commons Home Affairs Committee Oral Evidence Feb 2 <sup>nd</sup> 2022
<a href="#">Immform - Seasonal flu vaccine uptake in GP patients: (2021-22)</a>	Cumulative data showing the number of GP-registered patients in England having the seasonal influenza vaccine, provided monthly and extracted from the IMMform database	UKHSA (UK Health Security Agency)
<a href="#">Inclusion Health : applying our health (2021)</a>	This guide was written to help front-line health and care staff use their trusted relationships with individuals, families and communities to take action on inclusion health.	OHID (formerly Public Health England)
<a href="#">Inspection of contingency asylum accommodation (2022)</a>	This is a report on an inspection focused on the delivery and assurance of the Asylum Accommodation and Support Contracts and the use of hotels as contingency asylum accommodation	Independent Chief Inspector of Borders and Immigration
<a href="#">Local Tobacco Control Profiles (2021)</a>	Located on OHID Fingertips, it contains several indicators related to tobacco usage, and harms in England	OHID

# APPENDIX B – DATA SOURCE DESCRIPTIONS (A-Z)

Data Source Link	Description	Authors
<a href="#">London Boroughs Healthy Streets Scorecard (2022)</a>	The London Boroughs Healthy Streets Scorecard shows to what extent London Boroughs are putting in place 5 key measures including 1. Borough-wide Low Traffic Neighbourhoods 2. A default 20mph speed limit on all borough and Transport for London controlled roads 3. Small-area Controlled Parking Zones borough-wide 4. Protected cycle lanes on main roads 5. Traffic-free streets around all schools and safe walking and cycling routes to school	Healthy Streets Coalition
<a href="#">London Datastore - CHAIN Reports (2022)</a>	These reports present information about people seen rough sleeping by outreach teams in London.	GLA
<a href="#">London Datastore – Economic Fairness (2021-22)</a>	A series of resources and links to a number of research outputs that explain and measure different aspects of economic fairness.	GLA
<a href="#">London Datastore - Employment Gaps – (2019-20)</a>	Reporting on a series of measures presenting on the employment rate for one group compared to that of several others.	GLA
<a href="#">London Datastore - Housing in London (2021)</a>	The Greater London Authority's 'Housing in London' report sets out the evidence base for the Mayor's housing policies, summarising key patterns and trends across a wide range of topics relevant to housing in London.	GLA
<a href="#">London Datastore - Income Inequality (2020-21)</a>	A series of metrics on income inequality in London	GLA
<a href="#">London Datastore – KS4 Achievement (2020-21)</a>	Annual updates presented on the “Attainment 8” scores in London	GLA
<a href="#">London Datastore – Poverty (2016-17)</a>	Periodic updates presented on poverty metrics in London	GLA
<a href="#">London Datastore – Poverty in London (2020-21)</a>	A report on poverty in London for financial year ending March 2021	GLA
<a href="#">London Datastore – School Readiness (2019)</a>	Annual updates presented on “school readiness” as determined by Early years Foundation Test scores in London	GLA
<a href="#">London Vision -Tobacco-control-and-reducing-smoking</a>	A brief overview of the London Vision for Tobacco control and reducing smoking produced by the Healthy London Partnership	Healthy London Partnership
<a href="#">MOPAC, Public Attitude Survey (PAS) (2022)</a>	MOPAC conducts three ongoing surveys, providing a regular overview of how London residents experience and perceive the police. One of these is the Public Attitude Survey (PAS) which includes 12,800 London residents per year and captures a wide range of perception data.	Mayors Office for Policing and Crime (MOPAC)

# APPENDIX B – DATA SOURCE DESCRIPTIONS (A-Z)

Data Source Link	Description	Authors
<a href="#">NHSE Segmentation Model (2021)</a>	Data from the National Commissioning Data Repository (NCDR) for the entire population have been transformed into a person-centred segmentation dataset (or data model) that can be used by data analysts to derive segment-specific insights. This has been developed within NHS England and NHS Improvement's (NHSEI) data environment. The segmentation approach used is an adaptation of the internationally recognised 'Bridges to Health' (B2H) segmentation model – a life course model that groups people into 8 segments. From the healthy / generally well population to populations at the end phases of life	NHSE
<a href="#">NIESR modelling (using LINDA, NiReMS) (2022)</a>	A report from the NIESR in Spring 2022 on the UK economic Outlook including key data and modelling	National Institute of Economic and Social Research (NIESR)
<a href="#">OHID CHIME tool (2022)</a>	The OHID CHIME tool brings together data relating to the impacts of COVID-19, for factors such as mortality rates, hospital admissions, confirmed cases, vaccinations and life expectancy.	OHID
<a href="#">OHID Fingertips - Cancer Services (2021)</a>	Located on OHID Fingertips, it contains several indicators related to cancer services in England, including new cases, screening coverage statistics and two-week wait referral rates	OHID
<a href="#">OHID Fingertips - Mortality profile (2020)</a>	Located on OHID Fingertips, it contains several indicators related to mortality in England, including under 75 mortality rates and excess mortality rates due to certain specific diseases	OHID
<a href="#">OHID Fingertips - National General Practice Profiles (2021)</a>	Located on OHID Fingertips, it contains several indicators related to General Practices in England, including prevalence of several common conditions such cancer, coronary heart disease, and is based largely on the Quality and Outcomes Framework Data.	OHID
<a href="#">OHID Fingertips- Fraction of mortality attributable to particulate air pollution (2020)</a>	Located on OHID Fingertips, it is an indicator that measures the fraction of annual all-cause adult mortality attributable to particulate air pollution in England.	OHID
<a href="#">ONS - Access to gardens and public green space in Great Britain (2020)</a>	Analysis of Ordnance Survey (OS) data on access to private gardens, public parks and playing fields in Great Britain, available by country, region, Local Authority and Middle Layer Super Output Area.	ONS
<a href="#">ONS Ethnic Difference in Life Expectancy (2011-14)</a>	Experimental analysis of ethnic differences in life expectancy and cause-specific mortality in England and Wales based on 2011 Census and death registrations	ONS
<a href="#">NIESR modelling (using LINDA, NiReMS) (2022)</a>	A report from the NIESR in Spring 2022 on the UK economic Outlook including key data and modelling	National Institute of Economic and Social Research (NIESR)
<a href="#">OHID CHIME tool (2022)</a>	The OHID CHIME tool brings together data relating to the impacts of COVID-19, for factors such as mortality rates, hospital admissions, confirmed cases, vaccinations and life expectancy.	OHID

# APPENDIX B – DATA SOURCE DESCRIPTIONS (A-Z)

Data Source Link	Description	Authors
<a href="#">ONS Family Spending dataset, Workbook 2 (2021)</a>	Analysis of average weekly household expenditure on goods and services in the UK, by age, income, economic status, socio-economic class, household composition and region. The data used is derived entirely from the Living Costs and Food Survey which combines survey and interviews data and has a sample size of approximately 6,000 responding households per year	OHID
<a href="#">ONS Health state life expectancies, UK</a>	Data on the number of years people are expected to spend in different health states among local authority areas in the UK	OHID
<a href="#">ONS National Life Tables</a>	Data on trends in period life expectancy, a measure of the average number of years people will live beyond their current age, analysed by age and sex for the UK and its constituent countries	OHID
<a href="#">OHID Fingertips - Reception: Prevalence of overweight (including obesity) – (2019-20)</a>	Located on OHID Fingertips, it is an indicator that measures the proportion of children aged 10-11 years classified as overweight or obese using data from the National Child Measurement Programme	OHID
<a href="#">OHID Fingertips - Percentage of physically active adults (2020-21)</a>	Located on OHID Fingertips, the indicator represents the number of respondents aged 19 and over, doing at least 150 moderate intensity equivalent (MIE) minutes physical activity per week in bouts of 10 minutes or more in the previous 28 days expressed as a percentage of the total number of respondents. It uses data from the Active Lives Survey which has a approximate sample size of around 175,000 people	OHID
<a href="#">OHID Fingertips – Year 6: Prevalence of overweight (including obesity) (2019-20)</a>	Located on OHID Fingertips, it is an indicator that measures the proportion of children aged 4-5 years classified as overweight or obese using data from the National Child Measurement Programme	OHID
<a href="#">Population change in London during the pandemic (2022)</a>	Periodic reports presenting assessments of the available evidence concerning population change in London since the beginning of the COVID-19 pandemic	GLA
<a href="#">Public Health England Fast food outlets: density by local authority in England (2017)</a>	A map, by area deprivation chart and data tables showing the density of fast food outlets in England, by local authority and ward.	OHID (formerly Public Health England)
<a href="#">OHID Fingertip - Healthy life expectancy at birth - (2018-20)</a>	Located on OHID Fingertips, it is an indicator that measures the average number of years a person would expect to live in good health based on contemporary mortality rates and prevalence of self reported good health.	OHID
<a href="#">Quality and Outcomes Framework (QOF) 2020/21 (2020-21)</a>	This Quality and Outcomes Framework (QOF) report for 2020/21 contains indicators across a range of key areas of clinical care and public health, and is used to assess and reward quality of care provision in general practice	NHSE
<a href="#">Sports England – Active Lives Surveys (2020-21)</a>	Data from two surveys: Active Lives Adult, which is published twice a year and Active Lives Children and Young People, which is published annually.	Sports England
<a href="#">State of London Report – Dashboard (2022)</a>	This report provides updates on a range of indicators relevant to the Mayor's policy and strategy including areas such as housing, demography and economy and labour market	GLA
<a href="#">TfL (2021) 'Travel in London Report 14 (2021)</a>	Travel in London is Transport for London's (TfL's) annual publication that summarises trends and developments relating to travel and transport in London	Transport for London (TFL)

# APPENDIX C METHODOLOGY

- Greater London Authority (GLA) Health, GLA City Intelligence Unit, Office for Health Improvement and Disparities (OHID), NHSE and Institute of Health Equity (IHE) have formed a data working group and collaboratively produced this snapshot of health inequalities issues in London, which can provide a platform for more in-depth work in specific areas
- An adapted version of the [Kings Fund measures of health inequalities](#) has been used to help structure the deck and identify through iterative discussion, topic areas for inclusion to illustrate the breadth of inequalities challenges in London
  - The Kings Fund advise inequalities can be measured through difference in health status, wider determinants of health behavioural risks factors, access to care and quality and experience of care
  - The structure of this slide deck, is similarly divided in parts, covering current context, health inequality in health status, wider determinants, health behavioural risk factors, death and illness and healthcare inequalities
- Given its central importance as the root cause of health inequalities, the wider determinants part is additionally been structured to mirror the Marmot 8 Principles as laid out in [Health Equity in England Report: Marmot Review 10 years on](#)
  1. Give every child the best start in life
  2. Enabling children, young people and adults to maximise their capabilities
  3. Fair employment and good work for all
  4. Healthy standard of living for all
  5. Healthy and sustainable places and communities
  6. Ill Health prevention
  7. Racism and Discrimination
  8. Environmental Sustainability and Equity

# APPENDIX C METHODOLOGY

- For illustrative purposes and to highlight the breadth of inequalities, where possible, inequalities have been examined across 4 dimensions (deprivation, geography, protected characteristics and inclusion health)
- The sources of data available have been identified from existing published primary and secondary data sources, working in partnership through iterative discussion and latest available data for indicators (at the timing of writing this report) and from reports was used where possible

We **aim** to use this work to

- Provide a high level overview of major inequalities issues affecting London in a ready-to-use accessible format
- Highlight existing data resources available in London to measure inequalities around a shared overarching narrative that system colleagues can use
- Provide a platform for partnership work on inequalities across London such as identifying key gaps in intelligence, that would help improve understanding of inequalities
- Provide a resource which colleagues working on health intelligence and strategic work on inequalities can use as a reference point

# APPENDIX D LIMITATIONS

We want to transparently acknowledge **limitations** of this report including:

1. This is only a snapshot of inequalities issues in London and not intended to comprehensively cover all inequalities issues affecting London, every inequality dimension for every issue, or every factor driving inequalities in London.
  - This is intended as a resource to provide a platform for partners across London to raise inequalities issues, and commence further in-depth work as needed, or raise the case for specific actions only
2. This report contains only data that is published in the public domain only
3. This report has used the latest intelligence available and known to colleagues across the data working group, at the time of writing, for topic areas discussed, and recognises others may be available or published since the time of completion
  - This also means that data for different topics will be more up to date than others
4. This report cannot be used in isolation to prioritise health inequalities issues in London or indeed Identify actions needed to address inequalities which are beyond its scope
5. The report has focused most on wider determinants and inequalities within, and less so on health behaviours and health protection which has been covered in other published resources such as the [Health Profile for London](#).
6. Specific limitations in terms of how data has been developed, cut and presented have been highlighted throughout where possible
