

Children and Young People's Health Equity Collaborative

Deadline for applications:
12pm on Monday
31st October
2022

Do you work in an Integrated Care System? Barnardo's, in collaboration with the UCL Institute of Health Equity, led by Sir Michael Marmot, is on the hunt for three ICS partners to join them to co-develop an innovative monitoring and evaluation framework.

Over three years, your ICS will collaborate with us to develop a data-driven approach to understanding and addressing health inequalities among children and young people through a Dynamic Measurement Tool and Interventions. The Collaborative will conclude by publishing its evaluation and supporting ongoing action in identified areas of need.

This collaboration could transform the way health inequalities are tackled, create more effective outputs for ICSs and, ultimately, create widespread system change to deliver the very best holistic health and social care for children and young people.

We'd love to hear from you if you would like to be involved. To learn more about the collaboration and how to apply, visit:
www.barnardos.org.uk/health-equity-collaborative.

Please book your place on the ICS and Partners Stakeholder Engagement Event via Eventbrite:
